

Hermeet Singh, ABCP

Senior Solution Architect and BCM Consultant

Hermeet has experience in the IT Industry with a Storage Focus. His key exposures are Enterprise Systems and Storage (SAN) Focus.

Hermeet conducted a BIA for DTAC in Thailand, for the Central Bank of Sri Lanka, for Petronas in Malaysia, and Kasikorn Ltd, in Thailand.

Possessing a strong technical background blended with excellent consulting skills, Hermeet’s experience is a blend of the technical and business process for large and complex customers. Consultation on Security Assessment Services includes intrusion detection and architecture review.

He is currently serving as BCS consulting practice lead in Asia and has served Asia South Regional Business Continuity focus within SUN providing solutions, assessments and architectures for Business Continuity Planning and Disaster Recovery. Hermeet developed the approach and deliverables for the services associated with BCP for Sun APAC.

Hermeet resides in Malaysia.
